

Volume 27 Number 19

January 6, 1976

YEMEN: More Foreign Work for Poly Faculty

Two faculty members from the School of Agriculture and Natural Resources have embarked on a 26-month program which hopefully will provide new sources of animal protein in the diets of 6 million residents of Yemen. Leo Sankoff (Poultry Science) and Thomas O. Meyer (Food Industries) will direct the establishment of training and demonstration centers designed to instruct the Yemenis in modern poultry raising techniques. Yemen, in existence since before 1200 B.C., (as the ancient kingdom of Saba) contains nearly 6 million people in an area of 75,250 square miles. The Yemen highlands are well adapted to agriculture, exporting coffee, hides, skins, and salt.

Objectives of the program, conducted under contract by Cal Poly with the Agency for International Development, are to increase the income of the small farmer and improve nutrition through increased availability of additional sources of animal protein to the poorer elements of the population. During their 26-month tour of duty in the Mideast arab nation, Sankoff and Meyer will establish projects for the brooding and rearing of replacement pullets; the brooding, raising, and processing of broilers; and incubation and hatching operations.

They will develop designs for poultry buildings, egg rooms, and broiler processing facilities within the means and resources of the Yemen farmer to build. They also will develop specifications for poultry equipment which can be constructed within Yemen. The two will develop training programs to teach Yemenis about poultry disease prevention, control, and treatment, including sanitation and vaccination requirements, poultry management, feeding, and nutrition.

They will develop educational programs in marketing and economics, including extension techniques which Yemeni counterparts can put into operation. They also will develop shop engineering techniques applicable to the needs of the nation. Sankoff, who will serve as chief of party, will expend his energies on developing the poultry know-how among the Yemeni, while Meyer will be responsible for the development of training programs for the Yemeni counterparts.

Sankoff, a Cal Poly alumnus, has been a member of the poultry science faculty at the university since 1946. He will be accompanied by his wife, Helga, and two daughters. Meyer, on the Cal Poly faculty since 1955, will be accompanied by his wife, Margaret. The project in Yemen is the latest in a series of overseas educational programs conducted by Cal Poly on behalf of AID. University faculty members have assisted in Africa with programs in Zambia, Tanzania, Lesotho, Botswana, and Swaziland in Asia with Thailand; and in Central America with Guatemala and Costa Rica in recent years.

POLY ROSE FLOAT WINS AWARD

Nearly a year of hard work has paid off for the more than 100 students at Cal Poly who were involved in preparation of their float entry for the 87th Tournament of Roses Parade, which took place in Pasadena on New Year's Day. Their reward was the Founders' Trophy, one of the major awards for the parade, which was viewed by an audience of 1.35 million persons along the 5-mile parade route and another 100 million who watched on television in the United States and throughout the world.

The animated float, which featured a small boy and his bassett hound pausing for rest and refreshment after a hard day of play, required the blossoms of nearly 150,000 flowers and other plant materials for decoration. Humor was provided by the effort of the boy to keep his pet from eating his ice cream cone.

Ray Davis, a senior majoring in transportation engineering and chairman of the committee which prepared the giant floral display for Cal Poly's Associated Students, Inc., said it was entered by the student bodies of Cal Poly, San Luis Obispo, and Cal Poly, Pomona, as a joint venture. It is the only float in the parade which is entirely designed, financed, constructed and exhibited by students.

The Founders' Trophy, which is annually awarded to the most outstanding self-decorated float, is one of the 18 major awards for the 61 floats that entered the 1976 parade. It is the 13th major prize won by Cal Poly floats in the 28 parades they have entered since 1949 and the 10th in the last 11 years.

DEAN SELECTION COMMITTEE CHOSEN

The completed membership list for the consultative committee for the selection of a dean of agriculture and natural resources is as follows:

Agriculture and Natural Resources	Robert Wheeler (Animal Science) Harmon Toone (Dairy & Poultry Science) John Rogalla (Agricultural Business Management) Joseph Glass (Agricultural Engineering) Wallace Glidden (Veterinary Science)
Architecture and Environmental Design	John Stuart
Business and Social Sciences	Dominic Perello (Economics)
Communicative Arts and Humanities	Mona Rosenman (English)
Engineering and Technology	Richard Hall (Engineering Technology)
Human Development and Education	Mildred Roske (Home Economics)
Science and Mathematics	Patrick Wheatley (Mathematics)

Also included on the committee are the ASI Representatives, Dennis Edlund and Pat Leonard. The committee has chosen John Rogalla as its Chair. Applications for the dean position should be submitted to Hazel J. Jones (Vice President for Academic Affairs) by February 16, 1975.

OVERENROLLMENT RESULTS IN MORE FUNDS

Department of Finance approval has been received for funding the CSUC systemwide overenrollment (which exceeds 2% of that originally budgeted), President Robert E. Kennedy has announced. This augmentation is in response to a Board of Trustee request which sought fiscal relief for the overenrollment as provided by the Budget Act.

Based on the 331 fundable FTE (531 actual, less 200 which the campus is required to serve from resources originally budgeted) overenrollment projected for Cal Poly and a funding rate of \$433/FTE, the campus share of this augmentation will be \$143,323. President Kennedy explained that local distribution of the funds to various Cal Poly campus programs is currently being reviewed. However, a minimum of 50% of the funding will be scheduled in the Instruction Program following the guidelines promulgated by the Chancellor's Office.

This augmentation is in addition to the \$54,615 received earlier to fund additional faculty positions.

LIBRARY TOURS PLANNED

Library tours for interested students will be conducted by the Library Staff from Monday through Friday (Jan. 12 to 16). Daily tours will be scheduled at 11 am, 2 pm, and 4 pm. Students will meet in a designated area in the Library Foyer and will tour, in groups, the various service and reading areas of the Library. It is hoped that many students will take advantage of these tours.

Faculty members interested in a similar tour of the Library may make arrangements by contacting Angelina Martinez (Head of Public Services) at Ext. 2652, after Thursday (Jan. 8).

FIRST WEEKEND WILL SHOW FILMS

"Far-out people" and their habits will be the subject of a film festival to be presented as part of the First Weekend Program on Saturday (Jan. 10) in the Cal Poly Theatre. The series of five films will be shown from 10 am to 2 pm and again from 2 pm to 5 pm. Admission will be free and the public is invited to join the campus community in attending.

The first film of the series will be "Les Maitres Fou," which examines the extreme changes experienced by African tribesmen as they leave city jobs to take part in frenzied tribal rites and then return at the end of the weekend to their city jobs. Forty-five minutes later, in "Sylvia, Fran and Joy," three African women will reveal their different attitudes toward their husbands and married life. Next, "Alone in the Midst of the Land" will view the last man on earth as he recalls the man-made pollution that created the final catastrophe.

Leading scientists look at "Psychics, Saints and Scientists" to explore the possibilities of parapsychology, telepathy, faith healing, and religious experience. During the last half hour of both programs, the film "Blake" will show the life style of a free man, attached to nothing but his plane, soaring at will between the heavens and earth. The First Weekend series is a continuing program of the School of Communicative Arts and Humanities.

ANOTHER BICENTENNIAL FESTIVAL COMING

The role of speechmaking and music in America's history will be examined in a series of Bicentennial events scheduled to open Monday (Jan. 12) at Cal Poly. Featured during the festival, which will continue through Friday (Jan. 23) will be an official Smithsonian Institution exhibit, "The Inaugural Story From Washington to Ford." One of seven events planned during the 12-day period, the exhibit will be presented in the lobby of the University Union. Contrasts in inauguration styles will be displayed by the use of 40 panel illustrations.

The festival will open Monday (Jan. 12) at 8:15 pm in University Union 220 with a speech by Dr. Anthony Hillbruner, professor of rhetoric and American studies at California State University at Los Angeles. He will talk on "The Inaugural Address as an Art Form: Old and New." A noted speech critic, Dr. Hillbruner has recently written two articles dealing with former President Richard M. Nixon's inaugural addresses.

The following day, Tuesday (Jan. 13), a demonstration of Lincoln-Douglas style debating will be conducted as part of the National Bicentennial Youth Debates Program sponsored by the National Endowment for the Humanities. Two Cal Poly students, Lisa Wheeler and Carl Sawtell, will debate the topic, "Resolved: That American Political Parties Have Been Dominated by Socio-Economic Elites," starting at 12 noon, also in University Union 220.

All events of the festival, which is being presented by Cal Poly's Committee for the U. S. Bicentennial in cooperation with the university's Music and Speech Communication Departments, are open to students and the public. Admission will be free. The festival is part of a continuing series of special programs presented by the university's Bicentennial committee in honor of the country's 200th birthday.

TWO RETURN FROM GUATEMALA

Gerry R. Flake (Agricultural Management) has returned to a teaching position in the Agricultural Management department following a twenty-eight month assignment in Guatemala. Flake, who was accompanied by his wife and family during the assignment, served as an agricultural cooperatives advisor to the Ministry of Agriculture under Cal Poly's Institutional Development Agreement with the Ministry and the Agency for International Development.

Eduardo Apodaca, who has worked since Sep. 1973 as a communications specialist on Cal Poly's Guatemala contract, assumed the position of Production Services Coordinator of Communications/Media Productions on Jan. 1. Prior to his assignment in Guatemala, Apodaca served as Associate Director of the Bay Area Bilingual Education League and as Director of Project "Hacer Vida" in five Riverside country school districts. Apodaca, whose educational background includes a degree from the University of Texas at El Paso and graduate work at the University of Southern California, will reside in San Luis Obispo with his wife Margaret and their four children.

SCHOLARSHIPS BENEFIT FROM SALE

James R. Landreth (Director of Business Affairs) has announced that the recent campus sale of lost and found articles resulted in a total of \$930.66 received. This amount has been deposited in the General Scholarship Fund and will be used to provide financial aid to qualified and deserving students.

FOREIGN STUDENTS MAY PAY TUITION BY INSTALLMENTS

James R. Landreth (Director of Business Affairs) has announced that a recent addition to the Education Code of the State of California provides that, effective Jan. 1, a non-resident student who is a citizen and a resident of a foreign country, and not a citizen of the United States, may pay required non-resident tuition fees on an installment basis.

Foreign students electing to pay part or all of their non-resident tuition on an installment basis will be required to pay all fees required of California residents (Student Services, University Union, ASI and Facilities Fees) at registration. The balance of non-resident tuition not paid at registration may be paid in one or two installments. The first installment falls due 30 calendar days following registration by the student and must cover, when combined with any amount paid at registration, at least one-half of the non-resident tuition for the quarter. The second installment falls due 60 calendar days following registration by the student and must cover any unpaid balance. A 10% service charge will be added to each installment payment to cover the cost of handling.

Foreign students wishing to participate in this program will be required to complete Financial Operations Form F07566 in duplicate. The completed forms must be presented in lieu of payment of non-resident tuition at registration time. Blank forms are available at the University Cashier, Adm. 131E.

CORNELL ACCEPTS POSITION AT WITTENBERG UNIVERSITY

Dale W. Andrews (Executive Vice President) has announced that C. David Cornell (Director, University Advancement) has resigned his position at Cal Poly effective Friday (Jan. 9), in order to accept the position of Vice President for University Advancement at Wittenberg University in Springfield, Ohio.

Andrews indicated that in order to continue with programs initiated in the advancement area, various aspects of the University Advancement Program are being assigned to the following administrative staff:

Private and Corporate Foundation Programs -- Robert Lucas (Coordinator, Research Development);

Deferred Giving -- Al Amaral (Executive Director, Cal Poly Foundation); and
Alumni Affairs -- Steven Riddell (Coordinator, Alumni Services)

Faculty and/or staff with questions regarding the various areas should contact the above. Inquiries regarding any other aspect of the Advancement Program should be directed to Dr. Andrews.

KRANSDORF TO BE ACTING POLITICAL SCIENCE HEAD

On the recommendation of Carroll R. McKibbin (Dean, Business and Social Sciences) and the endorsement of Hazel J. Jones (Vice President Academic Affairs), President Robert E. Kennedy has appointed Richard Kransdorf as acting head of the Political Science Department for the period of Jan. 1 through Mar. 19. The appointment was made in accordance with the Campus Administrative Manual and included consultation with the department faculty. Dr. Kransdorf will serve as department head during the absence of William M. Alexander who will be on leave Winter Quarter.

EARLY A I D DRIVE RESULTS HIGH

Early returns in the 18th AID-United Givers campaign being conducted among state employees in agencies throughout San Luis Obispo County indicate major increases in charitable support of the health, youth and welfare organizations serving the county. "Not only are there increases in individual giving," said Capt. Ernest G. Tripke, California Highway Patrol area commander who is serving as chairman of the AID drive, "but there is greater participation in many of the departments." He noted that there are 15 participating agencies and departments this year--five more than last year. Twelve of the state agencies have their final reports in and each shows an increase over the prior year for a combined total of \$40,464.

California state employee contributions accounted for 28 percent of the overall giving through AID in the county last year when charitable support went to a record high of \$131,907. In addition, contributions of \$24,463 by employees at Cal Poly last year accounted for 64 percent of the state employee pledge and 19 percent of the total giving in the county. This year university employees already have pledged \$27,003 with some late reports yet to be counted.

Their charitable contributions and those of other work-forces in the county support the major national health organizations, including the American Cancer Society, American National Red Cross, Easter Seal Society for Crippled Children and Adults, American Heart Association, March of Dimes, Mental Health Association and Muscular Dystrophy Association, and such local agencies as Achievement House, Avila School Functional Living for Handicapped Adults, Boy Scouts, Camp Fire Girls, Children's Home Society, Family Services Center, Girl Scouts, Middlehouse, Salvation Army, San Luis Obispo County Hot Line, and the YMCA.

BURGENER WINS MERIT AWARD

Harold L. Burgener (Assistant Administrative Analyst) recently received a \$540 award from the State Merit Award Board. Presentation of the award was made by President Robert E. Kennedy on Thursday (Dec. 11). Burgener submitted a computer program which he designed to interface the Controller's payroll system with the State College and University Allotment Expenditure Ledger Reporting System.

This award is particularly noteworthy in that \$540 is the largest award a Cal Poly employee has ever received from the State Merit Award Board. Additionally, this suggestion is subject to be re-evaluated Oct. 1, 1976 for consideration of a further award based upon added savings.

Awards made by the State of California Merit Award Board recognizes suggestions from State employees that result in saving of either manpower or funds or contribute to employees' safety. All employees are encouraged to submit ideas. Suggestion forms are available in the Personnel Office or the Office of the Director of Business Affairs.

REZENDES SHOW IN GALERIE

Joyce Rezendes (Art) will be having an exhibition of her paintings and drawings at the University Union Galerie from Monday (Jan. 12) through Saturday (Jan. 24). The theme honors Native Americans and includes a series of twelve paintings done in 1971, depicting Hopi Creation Teaching. This will be the show's first presentation in the United States. Other works in the exhibition are inspired by rock paintings of the Chumash tribe and landscapes of this area. The Scroll, a 12 minute film relating to a 15th century Codex, will be shown on opening night (Jan. 12) only.

LETTERS OF CONGRATULATIONS RECEIVED

Recently, President Robert E. Kennedy has received two letters from off-campus praising Cal Poly organizations for their assistance to both the business world and a local city.

Rick Abdalla, President of the Morro Bay Chamber of Commerce, writes "Both I and the Chamber Board of Directors would like to express our sincere thanks to the Majors and Minors of the Cal Poly Mens Glee Club for their contribution to the 16th annual Gibraltar of the Pacific Jubilee. The Majors and Minors, led by student Bob Spurgin, won many well deserved rounds of applause during their excellent performance at our Old Fashioned Concert in the Park November 16. The high caliber of the group is such that we are already planning future events in the hopes of once again having the Majors and Minors. We would like to commend both you and all those concerned for your support of such a fine group as the Majors and Minors."

A letter signed jointly by J. J. McCullough (Assistant to the Manager, Industrial Relations) and H. F. Fothergill (Personnel Coordinator) of the Union Oil Company of California "We would like to express our appreciation for the help and courtesies extended to us as Union Oil Company of California recruiters at your campus December 1975.

Your university is to be commended on the most favorable impression that the interviewees left with us. Their scholastic standing, dress, complete resumes and ability to converse about job opportunities was outstanding. Certainly this in part must be attributed to the sound counseling they have received from your Placement Bureau."

Many other letters are received on campus citing the work on numerous organizations and offices. From time to time, Cal Poly Report will excerpt from these letters as example of the many others that cannot be presented in their entirety.

FACULTY-STAFF BOWLING LEAGUE ANNOUNCED

Winter Quarter bowling (Monday evenings) for faculty, staff, and spouses will begin Monday (Jan. 12) in the University Union bowling alley. Beginners are welcome. For further information call Walt Wilson at Ext. 2116.

POWER INSTITUTE GRANTS TO STUDENTS

Grants from two electric power industry firms are providing first year funding for a new program of graduate assistantships for engineering students. Pacific Gas and Electric Company and Bechtel Corporation each provided \$3,000 of the \$6,000 needed to get the new Cal Poly program started. Both firms have their headquarters in San Francisco. Recipients of the initial \$2,000 grants are Phillip Davis, Ed O'Brien, and Michael Beanland. They are the first students to receive financial support from the power industry under the program which is sponsored by the Cal Poly Electric Power Institute.

William F. Horton (Director, Electric Power Institute) said each of the graduate assistants is expected to take part in the directed research activities of the institute. Davis, O'Brien, and Beanland are involved in study of energy systems that utilize wind power. Referring to the contributions from Bechtel and Pacific Gas and Electric, Dr. Horton said such contributions are of "great importance" to success of the Cal Poly Electric Power Institute. "I think it is important to recognize the students' participation."

HUMANITIES COUNCIL FORMED

Humanities faculty members on all campuses of The California State University and Colleges have been invited to register their interests with the newly-formed California Council for the Humanities in Public Policy. The council, with offices in San Francisco and Los Angeles, is funded by the National Endowment for the Humanities. Currently the council is distributing questionnaires to humanist and social science faculty members throughout California in order to compile a directory that will indicate the range of resource expertise available for council projects.

Public forums, conferences, media programs and other forms of dialogue funded by the council offer a variety of opportunities for involvement by scholars in such disciplines as philosophy, history, literature, languages, political theory and other areas of the humanities and humanistically-oriented social sciences. CSUC members of the council are Chancellor Glenn S. Dumke and Charles Kaplan (CSU, Northridge). Overall, the council will award approximately \$500,000 in grants during its first 18 months of existence, matched by locally generated support. Humanities and social science faculty members who have not received a questionnaire are invited to write to either address of the California Council for the Humanities in Public Policy -- 111 New Montgomery Street, Sixth Floor, San Francisco, Ca. 94105 or 1 Wilshire Building, Suite 2120, Los Angeles, Ca. 90017.

UNIVERSITY CLUB PROGRAM - WINTER QUARTER

- | | | |
|----------|----|--|
| January | 8 | "Scenic Russia: Leningrad, Pyatigorsk, and Moscow" - Dr. Malcolm G. McLeod |
| | 15 | "A Tribute to the Bicentennial: History of San Luis Obispo County" - Mrs. Louisiana Clayton Dart |
| | 22 | "Use of Acupuncture" - Dr. Benjamin Cox |
| | 29 | "Europe, Summer '75" - Grace Arvidson and June Powell |
| February | 5 | "Overview of Student Affairs" - Mike Hurtado, Phil Bishop and Kathy Carlson (ASI Officers) |
| | 12 | "Fencing Skills" - Dr. Mary Lou White |
| | 19 | Scenes from "Harvey" - Murray Smith presenting Drama Students |
| | 26 | "Expression of Different Forms of the Dance" - Moon Ja Minn Suhr |
| March | 4 | "What's New in Income Tax" - Wallace H. Burt |
| | 11 | "It's a Lot of Blarney!" - Dr. James L. Fitts |

All University Club programs are on Thursdays at noon in the Staff Dining Room.

STUDENTS WIN LINCOLN WELDING AWARDS

Four former students at Cal Poly have won major awards totaling \$1,750 in a recent national design competition for engineering students. The awards, all in the undergraduate division, were part of more than \$23,000 in prizes given to undergraduates and graduates in the 1975 Engineering Student Design Competition of the James F. Lincoln Arc Welding Foundation of Cleveland, Ohio.

The winners, Frank Lawrence, Jr., Michael J. O'Neil, Robert W. Rose, and Michael Leuppe, all received bachelor's degrees from Cal Poly in June 1975. They were among 60 students from 19 different colleges and universities who won awards in the Lincoln competition. In addition to the awards given to the former students, the Lincoln Arc Welding Foundation presented \$250 grants to each of the students' undergraduate departments. The Lincoln competition, held annually since 1947, recognizes outstanding student achievement in the solution of engineering design problems.

NOTED MATHEMATICIAN WILL VISIT POLY

Dr. R. H. Bing, a noted mathematician and chairman of the mathematics department at University of Texas, will be a visiting lecturer at Cal Poly on Tuesday, Wednesday, and Thursday (Jan. 13-15). A native Texan whose research in topology, one of the relatively new and important areas of mathematics, strongly supports his reputation as one of the world's most influential mathematicians, Dr. Bing will address three campus gatherings while on campus.

The first will take place at 11 am on Tuesday (Jan. 13) in Science B-5; the second will be at 7 pm on Wednesday (Jan. 14) in Science North 215; and the third will be at 11 am on Thursday (Jan. 15) also in Science B-5. Students, faculty, and staff of the university are invited to all three campus presentations. Admission will be free.

HAWAIIANS TAKE HINTS FROM POLY

Three representatives of higher education in Hawaii visited Cal Poly for three days recently to study the agricultural programs of the university. Dr. Fredrick K. T. Tom of University of Hawaii, Hilo, and Anthony M. Costa, and David T. Ikeda, both of Hawaiian Community College, Hilo, studied the educational programs, practical farm experience aspects, and the farm enterprise system utilized in agricultural programs here. Dr. Tom is acting dean of the College of Agriculture of UHH, Costa is chairman of the Trade and Industrial Division at HCCH, and Ikeda is coordinator of agricultural programs at HCCH.

Dr. Tom, who heads the newly developing agricultural program at the University of Hawaii campus in Hilo, said, "It is our objective to develop a practical applied program at Hilo. University of Hawaii at Honolulu already provides the research programs and advanced academic work in agriculture needed in Hawaii." The representatives of Hawaii higher education were interested in gathering data for a farm to be used jointly by the university and the community college and in comparing curricula in agricultural majors. The three men visited Cal Poly after attending the American Vocational Association convention in Anaheim.

HEALTH AND SAFETY NOTES

Thousands of California employees suffer strains and overexertion each year because they use improper lifting methods. These painful and disabling injuries can be avoided by following certain steps. Improper lifting has been identified as a major cause of injuries here at Cal Poly.

In an effort to prevent this injury type the following eight steps to avoid improper lifting are suggested:

1. Size up the load. Make sure you can handle it easily by yourself. If not, get help.
2. Face the load squarely, get a firm footing and spread your feet about 10 to 12 inches apart.
3. Bend your knees and get a good grip on the load.
4. Keep your back straight and lift by straightening your legs.
5. Lift slowly and evenly without quick or jerky motions.
6. Keep the load close to your body throughout the entire lifting procedure.
7. If it is necessary to turn, change your foot position, don't twist your body.
8. When the load is heavy, use team work - lift slowly and evenly together.

WHO...WHAT...WHEN...WHERE???

Everett M. Chandler (Dean of Students) has published an article titled "What's in a Name? Student Development Centers" in NASPA Journal Vol. 13, No. 2, Fall 1975.

Joyce A. Rezendes (Art) has been notified that her work titled "Labyrinth" is now on tour of English museums as part of "The Envelope" exhibition, sponsored by J.P.L. Fine Arts Gallery of London.

John B. Connely (Education) was a respondent to a paper entitled: "Celestim Freniet: The French Dewey" at the annual meeting of the Far Western Philosophy of Education Society on Dec. 7. He has been elected Vice President of the society for the coming year.

George G. Gowgani (Crop Science) has been notified by the University of Nevada that he has completed all the requirements for his Ph.D. degree with a concentration in plant physiology. Dr. Gowgani, who has been on the Cal Poly faculty since Oct. 1, '67, did his research under Dr. F. W. Went, an internationally-known scientist who is well recognized among the plant scientists for his pioneer work on plant hormones.

Steven H. Yoneda (Men's Physical Education) attended the fall business meeting of the NorCal Athletic Trainers Association at West Valley College in Saratoga on Dec. 8 to present the program for the 1976 Sports Medicine Clinic to be held on this campus in conjunction with the physical education workshops this summer.

George W. Cockriel (Chief, University Police and Fire Department) received the following letter from Lee M. Schlobohm, Fire Chief of San Luis Obispo: "Please thank your men for their fine and much needed assistance during the Obispo Theatre fire. It is comforting to know such assistance is within shouting distance when we need it. I hope the day doesn't come that you need us that badly, but if it does, you may all rest assured we will be ready to repay this debt. Once again, please thank the men involved and tell them we appreciate their help more than mere words can say."

Walter (Walt) E. Elliott (Physics) participated in the first session of a course titled "Treatment and Critical Evaluation of Experimental Data," on November 17 and 18 at Stanford. The course was conducted by American Association of Physics Teachers and supported by the National Science Foundation.

Robert C. Firth (Counseling Center) has recently been elected as a member of the Board of Directors of the Western Regional Association of Hotlines.

William B. Wahl (English) attended a two-day centennial symposium celebration of Thomas Mann's birthday held at the UC campus in Santa Barbara on Nov. 14 and 15.

Barbara E. Cook, Robert L. Hoover, and Patrick C. McKim (all Social Sciences) attended the 74th Annual Meeting of the American Anthropological Association in San Francisco, held Dec. 2-6. McKim presented a paper titled "Darwinism and the Protestant Ethic" to the session on the history of anthropology.

Daniel E. Krieger (History) was the principal speaker at a luncheon session titled "The Historian and the Job Crisis," as part of the Pacific Coast Branch, American Historical Association Meeting at the University of California, Berkeley on Aug. 20. Dr. Krieger's report was based on the research he gathered with the assistance of a CSUC "Mini Grant" for the study of "career Alternatives in History and the Humanities," during the 1974-75 academic year.

SUPPORT STAFF VACANCY LISTED

A vacant support staff position has been announced by Robert M. Negranti (Staff Personnel Officer). Descriptions of the position and other vacancies are posted outside the Personnel Office, Adm. 110, ext. 2236. Contact the Personnel Office to obtain an application. This university is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply. The position is:

CLERICAL ASSISTANT II-A (\$301.50-\$367.00/month), (half-time position), Library (Public Services), Academic Affairs Division. Duties & responsibilities include typing correspondence, memoranda, statistical tables, and forms; filing; using xerox and other duplicating equipment; working with statistics; and other clerical duties as assigned. Requirements: some college background and knowledge of statistics preferred; at least one year of clerical experience; typing 45 wpm; and must have taken the General Clerical Test. Closing date: January 13, 1976.

VACANT FOUNDATION STAFF POSITIONS

The Foundation is accepting applications for the following open position(s) as announced by J. L. Fryer, Personnel Officer. Interested applicants may apply at the Foundation Personnel Office, University Union Bldg., #212; Ext. 1121. Cal Poly Foundation is subject to the requirements of Executive Order 11246 and is an Affirmative Action Employer. All interested persons are encouraged to apply.

CLINICAL AID (\$286.00-\$347.50, half-time, academic year), Health Center. Person to act as receptionist, perform general clerical duties, act as assistant to Oral Health Educator in instructing patients in proper use of dental cleansing techniques. Must be able to communicate effectively with the general public and address small groups. Must be a High School graduate. Closing date: January 20, 1976.

BICENTENNIAL TIME-LINE

The Continental Flag, having thirteen stripes, is raised by General George Washington at his headquarters in Cambridge. Norfolk, Virginia is burned by the order of Lord Dunsmore. Continental Congress resolves that Tories "ought to be disarmed, and the more dangerous among them either kept in safe custody, or bound with sufficient sureties as to their good behavior." After two days of bombardment by the King's Navy, Norfolk, Va., lies in ruins. Patriots burn remaining buildings in town, and the entire population of the city moves inland, out of the range of British guns.

Meanwhile in California, the Juan Bautista de Anza expedition reaches Mission San Gabriel. Later, Anza and eighteen of his men join Rivera and march to San Diego to quell the Indian uprising.

NEW EMPLOYEES AND PROMOTIONS ANNOUNCED

Donald L. Shelton (Director, Personnel Relations) announces the following appointments to new positions and promotions in the support staff personnel for December, 1975. A hearty welcome is extended to the new members of the Cal Poly staff and congratulations to those who have been promoted.

NEW EMPLOYEES:

Arata, Pamela	Clerical Assistant	Records Office
Beckmann, Gretchen L.	Placement Interviewer	Placement Office
Dufault, Kathleen L.	Intermediate Account Clerk	Accounting Office
Logan, Olivia	Custodian	Custodial Services
Lund, Barbara A.	Clerical Assistant	Business Administration
McCaleb, Barbara A.	Clerical Assistant	Architecture
Rea, Richard	Custodian	Custodial Services
Tuttle, Sondra M.	Departmental Secretary	Architecture

PROMOTIONS:

Reyes, Amador	Groundsworker	Grounds
Valdes, Arline	Departmental Secretary	Liberal Studies

OFF-CAMPUS POSITION VACANCIES

Information on the administrative position vacancies listed below can be obtained from the Placement Office, Adm. 213, ext. 2501:

Indiana State University, Terre Haute - Position of Vice President for Academic Affairs. Send nominations or applications to the Search and Screen Committee. Must possess necessary leadership and administrative qualifications for this important office.

California State University, Fresno - Vice President for Academic Affairs. Applications must be received by February 6, 1976. (Salary range: \$31,056 to \$37,752).

California State University, Chico - Dean, School of Behavioral and Social Sciences. Earned terminal degree and demonstrated successful administrative experience. (Salary range: \$27,492 to \$33,420). Application deadline February 1, 1976.

Contra Costa College, San Pablo, CA - Dean of Instruction (salary range: \$32,865 to \$34,529). Resumes to be screened by campus-wide committee. Deadline for applications is January 16, 1976.

California State University, Chico - Dean, School of Health and Human Services. This School was recently established and includes Department of Health Science, Division of Nursing, Recreation Administration and Social Welfare and Corrections.

"HEY, LADY RANGER" - TOPIC FOR WOMEN'S CLUB MEETING

The Cal Poly Women's Club will hold a general meeting on Tuesday (Jan. 13) at 8 pm in the Home Economics Living Room. Patricia Wiese will present a talk with slides entitled "Hey, Lady Ranger". Members and guests are invited.

encouraging notes

January 6, 1976

CARE Grant Eligibility: A Clarification. Because questions were raised about the definition of "teaching faculty and academic department heads" for persons eligible for Creative Activity and Research Effort (CARE) grants, the Research Committee has issued the following clarification: for the 1975-76 competition, those eligible for CARE grants will be all full-time teaching faculty and academic employees on the tenure track.

Because of limited funds, the Committee wishes to emphasize the restriction of funding this year to regular research and seed grants that might lead to proposals for larger grants. Faculty members seeking support for instructional programs are encouraged to look elsewhere within the university for funding.

(Dr. Grant has informed the Committee that for the academic year 1976-77, the Mini-Grant program is still in the budget and is being recommended for funding at the same level as this year. In addition, the Pilot Project and Multi-Campus competition on a state-wide basis are also in the budget. All these grants relate primarily to instruction. Announcements concerning the competition for these funds will be made in late February or March.)

Application forms for CARE grants are available in the Research Development Office, Administration 317, Extension 2982. The deadline is January 30, 1976, for notification by May 28, 1976.

The National Science Foundation has a number of one- to two-year assignments for faculty members who wish to join its staff temporarily to review and evaluate proposals. Participants gain an understanding of the processes of federal research-sponsoring programs, including the setting of priorities. A list of vacancies is available in the Research Development Office for inspection.
